

ADULT HAT

WWW.MYGRANDMATIME.COM

MATERIALS NEEDED:

T- shirt scraps
Good fabric scissors
Paper for making pattern
Pen/pencil
Paper grid or ruler
sewing machine

Make a pattern based on 1" squares.
You will also need knit fabric that is 7 ½ " x 24" for the hat band. This will be a reversible hat.

Stitch two of the hat sections together, stretching as you sew.
Add a third piece to those two, stretching as you sew.
Repeat until you have four sets of three together. Pin two sets together, matching the top seam point, and stretch as you sew each set together.

You should have 2 caps of six pieces each. Pin raw edges of caps together (wrong sides together), with seams staggered.
Baste stitch close to the edge, stretching fabrics as you sew.

Prepare hat band.

Cut or piece together a 7 ½ x 24 " piece of knit fabric.

(If it needs to be pieced, be sure the seams run the direction of the arrow.)

Sew the band into a circle on the 7 ½" side.

Fold band in half along dotted line.

Pin raw edges together and baste stitch close to edge, stretching fabric as you sew.

Fit & pin raw edges of cap and band together.

Stitch, stretching fabrics as you go.

Trim close to stitching.

24 "

7 ½ "

Iron band/cap seam to open, then fold flat so the raw edge is in the fold. Topstitch around band, stretching the fabric as you go. This will enclose the raw edges. If a bit of the raw edge is still showing, topstitch again with a bit wider seam.
