

Grandma's Gift

Grandma has a gift for each of you today.
Before she gives it to you, a guessing game we'll play.
To help you guess, here are some clues:
It could warm you through and through.
On your forehead, it could cool.
Or, use it as a useful tool
to hold a something in its place.
Or you could throw it into space.
On your head it helps you stand
straight and tall before it lands
upon your toe where you could kick
It up again to do a trick.
Best of all, it is a toy,
which I know will bring you JOY!

Merry Christmas!

Love,

Grandma (and Grandpa too!)
